Comfort Time Furniture

~ POLY FURNITURE ~

Comfort Time Furniture is a product that gives you peace of mind. There are some things that you should not have to worry about and whether or not your furniture will stand the test of time and the elements is one of them.

Comfort Time Furniture is: Built using the Highest grade Poly material, known as HDPE. This is a dense lumber that resists fading and has a color that goes clear through the material. It is made using almost 100% milk jugs, and is UV stabilized.

Comfort Time Furniture is: Reinforced with minimally showing marine grade Stainless hardware and aluminum that is more resistant to corroding than some grades. Topped off with Sunbrella outdoor cushions and umbrellas.

Combining these time-proven ingredients with our experienced craftsmen creates furniture that we hope you will enjoy for years to come.
